The ability of a CHP+ member to select a particular HMO is dependent on where the CHP+ member resides. A pre-HMO enrollment period is the span of time from a member's application date until the member is enrolled in a CHP+ participating HMO. The State Managed Care Network delivers care during this span or presumptive eligibility period.

State Managed Care Network is available in all counties during the presumptive eligibility and pre-HMO enrollment periods, as well as enrollments for prenatal clients.
