

COLORADO MEDICAID STANDARDS FOR UNLICENSED PRACTITIONERS

The Regional Accountable Entities (RAEs) have developed aligned standards to permit unlicensed/pre-licensed clinicians to render services to Health First Colorado (Colorado's Medicaid program) members. These standards are intended to safeguard the public while also maintaining the integrity of the health care profession. The greatest priority of the RAEs is maintaining a higher clinical standard of care for members. The new aligned standards will help ensure that unlicensed providers within mental health organizations and integrated care settings are receiving appropriate supervision and oversight, with the goal of quality member care that also supports expanding the workforce pipeline.
